EXECUTIVE SUMMARY

The company was incorporate in year 2003 as AWANA TECHNIC. At beginning the company only focused at offering technical support in Mechanical Engineering such as designing the component and integrated machine for SME and supplied mechanical equipment for industries and government agency.

After seven years providing services as mentioned, the company has decided to move forward and set up fabrication factory to venture business in telecommunication and onshore/offshore for mechanical services.

Further our business has taken a broader dimension to meet up with the new millennium challenge in global market. In striving to achieve that, we have restructured our company and privatized to **AWANA TECHNIC INDUSTRIAL SDN BHD** in year 2011. We decided to venture in new business in mechanical engineering services nowadays namely, sustainable technology in thermal & fluid for sustainable energy, environment and biodiversity.

TYPE OF BUSINESS

■ Mechanical & Electrical & Instrumentation, Oil & Gas Services

- Construction of steel structure cabin container for offshore oil platform.
- Construction and architectural works and furnishing for living quarters for offshore oil platform and Marine Vessels.
- Construction & Architecture Works and Furnishing.
- Steel Pipe Welding and Installation Supply and install mechanical and piping work (Offshore living quarter's system)

■ Civil Engineering Services

- Design, construction and maintenance of the physical and naturally built environment, institutional buildings, sewerage systems and pipelines.
- Renovation works
- Refurbish

■ Mechanical & Electrical Engineering Services

- Various type of pump, compressor system, air conditioning system, piping system, mechanical seal system, non-destruction test (NDT) and stainless-steel works.
- Wiring, lighting, fuse, battery, battery charger, generator set and on shore supply.
- Designing, fabricating, integrating, customizing machine, steel works, components and equipment for industries

■ **Welding and Fabrication Services**

- Fabrication of almost all engineering Works (Telecommunication bracket,
- Structural and Sheet Metal) for iron metal and non-ferrous metal.

■ **Machine Design & Upgrade services**

Design of a new machine using CAD/CAE software fabricate, install, commissioning of a new design machine upgrade of existing machine to increase the performance parameters.

■ **Fluid & Thermal Engineering Services**

Conditioning of Hydraulic oil (Water content control, ppm and Contaminations control NAS, ISO)
Drying system design (internal heat, external heat and without heat)

■ **Experimental & Computational Engineering Services**

Experimental rig (engine test bed, compressor & refrigeration system, sensors).
Computational: (cfd for fluid flow) (cosmos for material strength)

■ **Labour Supply, Ship Repair Service**

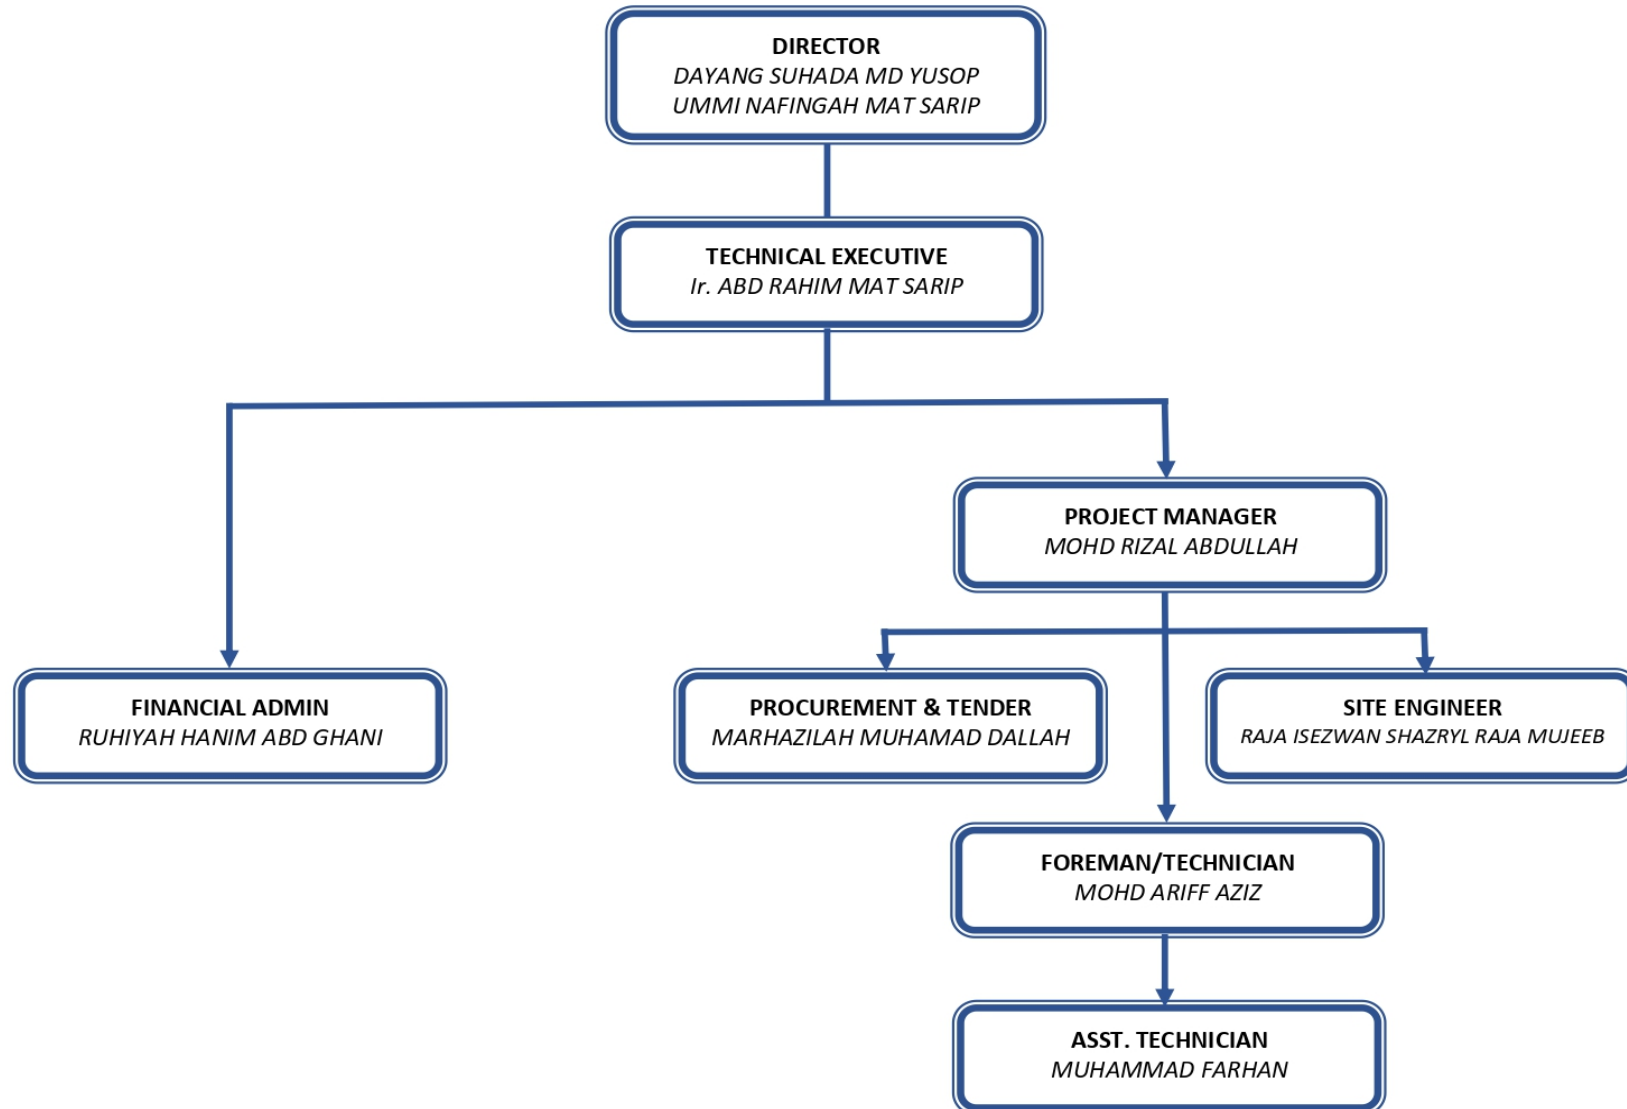

Labour supply (competence welder and fitter) for marine, oil & gas industries.
Labour supply for mechanical, architectural, structure& piping works.

■ **Ship Repair & Building**

Hull and deck repairs, engine repairs, electrical works, mechanical works, electronics/instrumentation and boat building
